SAFETY INSTRUCTIONS: CARRÉ STEEL 8X5

IMPORTANT SAFETY INSTRUCTIONS

Before using an electrical unit, basic precautions should always be followed, including the following:

DANGER - To reduce the risk of electric shock:

1. This SECURE DISPLAY SYSTEM contains electronic components.
Do not open these without a qualified electrician or an official Top Vision dealer.

WARNING - To reduce the risk of burns, fire, electric shock, or injury to persons:

1. Close supervision is necessary when this unit is used by, or near children, invalids, or disabled persons.
2. Use this unit only for its intended use as described in this manual.
Do not use attachments not recommended by the manufacturer.
3. Never operate this unit if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the product to a service center for examination and repair.
4. Never drop or insert any object into any opening other than the intended use of presenting sunglasses.
5. Do not use outdoors / for indoor use only!

MAINTENANCE INSTRUCTIONS - Instructions for cleaning and user maintenance operations:

1. The exterior of a SECURE DISPLAY SYSTEM may only be cleaned with a non-static brush.
2. The SECURE DISPLAY SYSTEM has no user serviceable parts. All malfunctioning or damaged components are to be replaced by a service representative duly authorized by Top Vision Group BV or an official Top Vision dealer.

INTENDED USE

1. The indented use of the Secure Display System is to display eyewear frames and sunglasses.
2. This product is for commercial use only.

Basic Operation

- **Short press:** Turns the light ON or OFF.

Adjusting Brightness:

- **Press and hold for 2 seconds** until the brightness level changes. This enters brightness adjustment mode.

- **Press again** to cycle through the 3 brightness levels.

- **The available brightness levels are:**

- 1: Low
- 2: Medium
- 3: High

After 10 seconds of inactivity, the light exits brightness adjustment mode automatically.

MANUAL DEL USUARIO: GUÍA DE FUNCIONAMIENTO DE LA LUZ

Funcionamiento básico

- **Pulsación breve:** enciende o apaga la luz.

Ajuste del brillo:

- **Mantenga pulsado durante 2 segundos** hasta que cambie el nivel de brillo. Esto permite ingresar al modo de ajuste de brillo.

- **Pulse nuevamente** para recorrer los 3 niveles de brillo.

- **Los niveles de brillo disponibles son:**

- 1: Bajo
- 2: Medio
- 3: Alto

Después de 10 segundos de inactividad, la luz sale automáticamente del modo de ajuste de brillo.
